#### Unidad N° 3:

# ADMINISTRACIÓN DE ENTRADA/SALIDA

**ANEXO:** DISCOS RAID

Introducción a los Sistemas Operativos

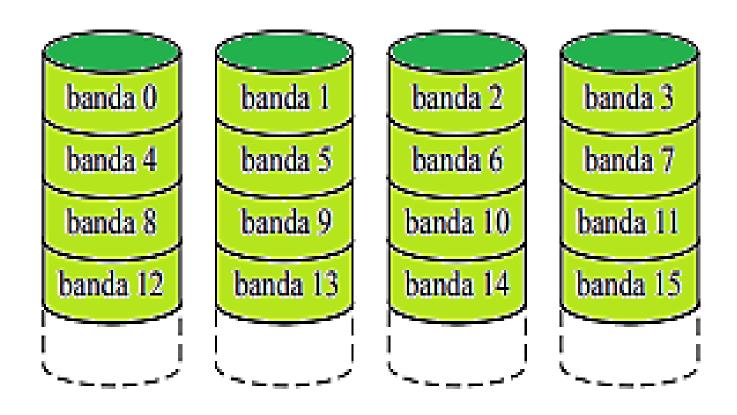

Discos RAID:

«Redudant Array of Independent Disks»

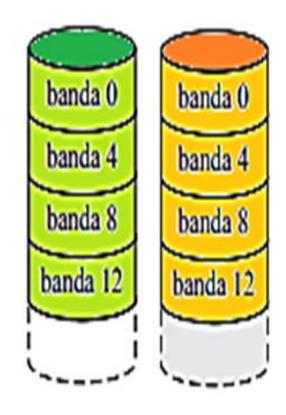

0

'Vector Redundante de Discos Independientes'

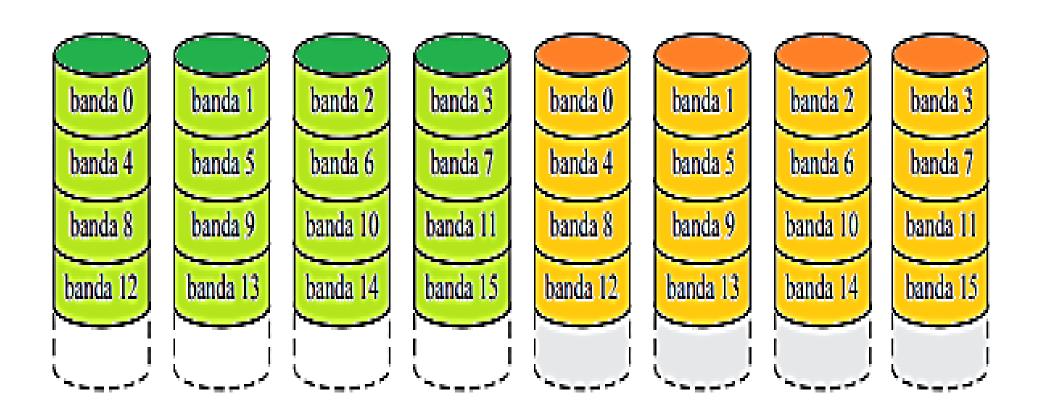

Discos RAID: RAID 0 (sin redundancia)

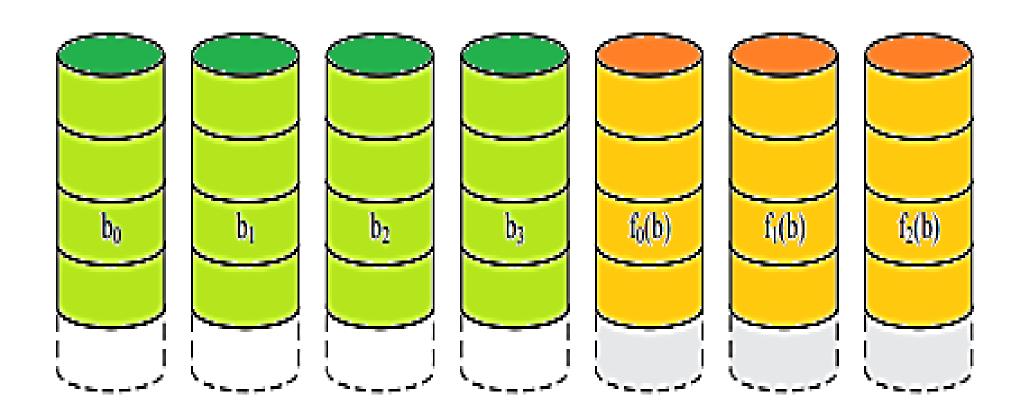

Discos RAID: RAID 1 (espejado)

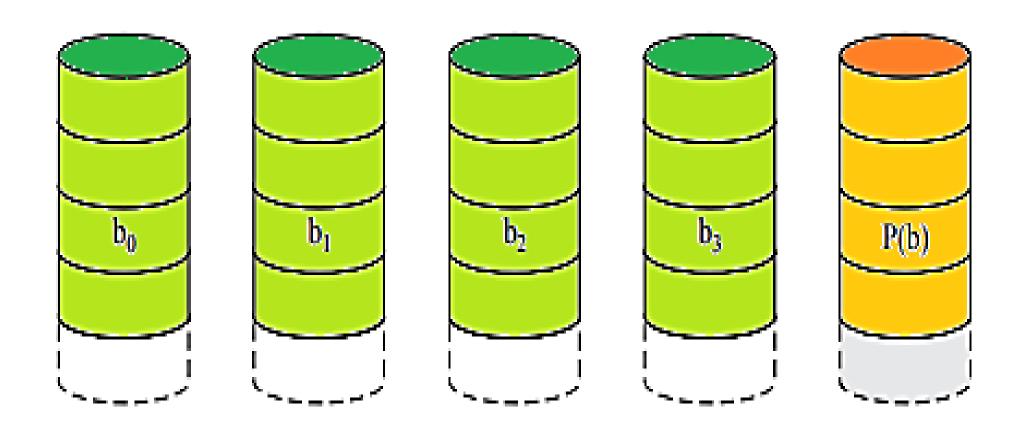

Discos RAID: RAID 1+0 (espejado)

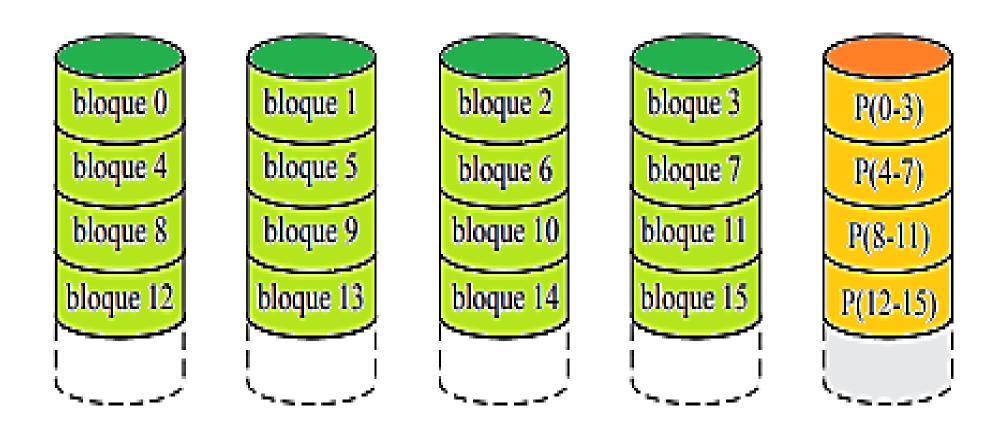

Discos RAID: RAID 2 (redundancia con Hashing)

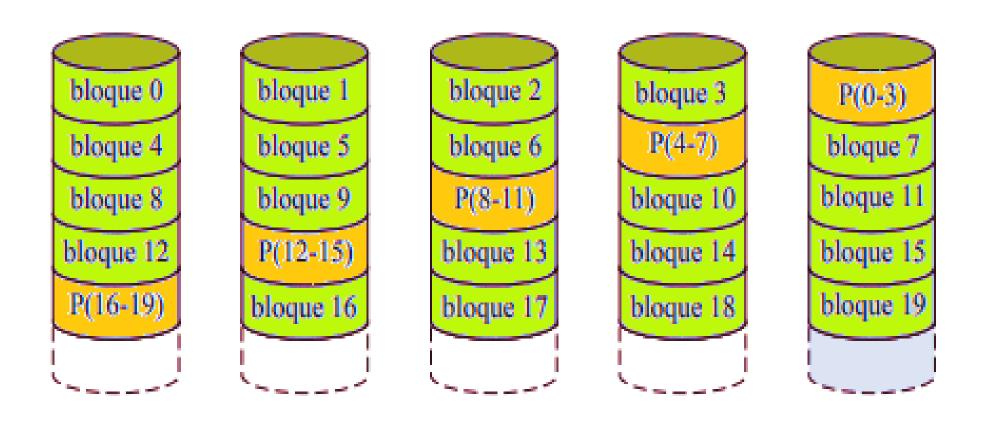

Discos RAID: RAID 3 (paridad a nivel bit )

> Discos RAID: RAID 4 (paridad intercalada a nivel bloque)

Discos RAID: RAID 5 (paridad distribuida a nivel bloque)

> Discos RAID: RAID 6 (redundancia dual)
